

Project No. 9

**DOFASCO INC.
CONTROLS**

Projects

Controls / Drives Equipment Upgrade for #2 - 5 Stand Rolling Mill

This project involved the installation of a modern control system, control desks, x-ray gauges and shape roll (approximately 2000 I/O).

Controls / Drives Equipment Upgrade for the Hot Mill

This project involved the installation of a modern control system, control desks and control panels (approximately 3000 I/O).

Controls / Drives Equipment Upgrade for 56" Temper Mill

This project involved the installation of a modern control system, electrical control house, and control desks (approximately 1200 I/O).

Controls / Drives Equipment Upgrade for #1 - 5 Stand Rolling Mill

This project involved the installation of a modern control system, control desks, x-ray gauges and shape roll (approximately 2000 I/O).

All the above installations were seamlessly integrated with adjacent operating facilities, and were completed during strategic shutdowns. The shutdowns involved very strict timeframes, and TCE completed all projects within these tight schedules.
